THE GOLD MEDAL GARAGE OF PHOENIX

Which is the Gold Medal garage of Phoenix? Ed. Rudolph says that the Ford garage is, and here's his answer—First, the Ford factory exhibit got the gold medal for the best factory exhibit at the big San Francisco ex-

hibit; second, Rudolph is the exclusive agent for the "Generator" the electric starter for Ford automobiles made by the General Electric company, and this also secured the Gold Medal offered for Ford starters at the

fair; third, Rudolph makes a specialty of selling Zerolene oil for Ford lubricating purposes, and this oil, the product of the Standard Oil company.

(Continued on Page Six)

☐ Hurrah for the Ford and just see what those 50 bucks will buy you at Vic Hanny's clearance sale (and enough left for a gallon of gas)

SOME FORD DON'T'S

Here are some "don't's" published by the Ford company. They contain some good, sound advice.

Don't make a practice of driving your car over bad roads or through city streets so fast that the foot brake must be used constantly for "slowing down." Control the speed of the car with the throttle, and save unnecessary wear on brake bands, tires, etc.

Don't forget your tires need a little attention; keep them properly inflated.

Don't put up your car when not hitting properly.

Don't neglect the rights of pedestrians on the streets and animals on the roads.

Don't adjust carburetor, clutch or coil, without first making sure you are right.

Don't forget to have the fixed as soon as possible after changing when punctured.

Don't see how much you can scare elder folks by driving close, sounding horn, etc.

Don't fill gasoline tank with oil lamps lit, motor running or lighted cigars around.

Don't forget to have front wheels, spindles and steering gear examined after bumping curbs, trees, posts, etc.

Don't forget to drain sediment bulb or gas tank once a month and oftener when you suspect gasoline is not clean.
